#### Note

- Details on student achievement calculations can be found at https://dpi.wi.gov/accountability/resources .
- Student Achievement only includes assessment results for students enrolled for the full academic year (FAY) in the school.
- Points displayed in the tables above are weighted so that larger numbers of students and more recent years contribute more to the score for the Priority Area.

#### Questions to consider

- Are more students in the basic or below basic performance level, compared to proficient and advanced?
- Has the percent of students who are proficient and advanced increased, decreased, or stayed the same over the last three years?

School Report Card Detail | 2018-19 | School Growth

### **School Growth**

Total Score: 57.5/100

The following growth scores are derived from a value-added model. Value-added growth estimates how much student scores are expected to change based on the actual growth of similar students. If the student's performance improved more than predicted by the model, we say her school had high value added. That is, the value the school's impact on student learning resulted in higher-than-predicted growth. A value-added score of 3.0 is average.

School Report Card Detail | 2018-19 | Closing Gaps

## **Closing Gaps**

**Notes - Prior Three Pages** 

- Total Score: NA/NA
- Details on Closing Gaps calculations can be found at <a href="https://dpi.wi.gov/accountability/resources">https://dpi.wi.gov/accountability/resources</a>.
- Closing Graduation Gaps is based on graduation data from prior years because data from the most recent year are not yet available.
- The points-based proficiency rate is calculated by multiplying the number of students with scores in the advanced category by 1.5, proficient by 1.0, basic by 0.5 and below basic by 0.0.
- The count of students for achievement calculations can be found in the Achievement Priority Area of the Report Card.
- The symbol "!" means that the group's average points-based proficiency rate or graduation rate is at least 0.9 and that the highest points possible have been awarded. This is to ensure that districts with very high achievement or graduation are not penalized with low Closing Gaps scores for small increases in gaps.
- Each student group included in Closing Gaps calculations is compared to its statewide comparison group using the same number of years of data. For example, if three years of data are available to determine the trend for the students with disabilities group, three years of data are included in the statewide comparison group trend for students without disabilities.

#### **About Supergroups**

Supergroups are a way to look at closing gaps among groups of students that would ordinarily be too small to include. A supergroup is made up of all the students that belong to any of the following categories:

- "All 3" Supergroup: students with disabilities, economically disadvantaged, and English Learners.
- "SwD-ECD" Supergroup: students with disabilities and economically disadvantaged students.
- "SwD-LEP" Supergroup: students with disabilities and limited English proficient students.
- "ECD-LEP" Supergroup: economically disadvantaged and English Learners.

A supergroup is used to evaluate Closing Gaps only when there are fewer than 20 students in each of the individual groups within the supergroup, but more than 20 students in the supergroup. For example, if a district had fewer than 20 students with disabilities and fewer than 20 economically disadvantaged students, but more than 20 students when those groups are combined, the "SwD-ECD" supergroup would be used to evaluate Closing Gaps. Students are not double-counted in a supergroup. In the example above, an economically disadvantaged student with a disability is only counted once in the supergroup.

#### Notes

- Details on On-Track and Postsecondary Readiness calculations can be found at <a href="https://dpi.wi.gov/accountability/resources">https://dpi.wi.gov/accountability/resources</a> .
- Third grade English Language Arts and 8th grade Mathematics Scores are determined in the same way as the Student Achievement Priority Area. However, if there are fewer than 20 students in the most recent year, then the most recent two years of data are combined so that the cell size requirement is met.
- Student Achievement only includes assessment results for students enrolled for the full academic year (FAY) in the school.
- Points displayed in the tables above are weighted so that larger numbers of students and more recent years contribute more to the score for the Priority Area.

School Report Card Detail | 2018-19 | Student Engagement Indicators

## **Student Engagement Indicators**

Goals Met: 2/2

All schools are expected to meet Student Engagement Indicator goals in these areas. Absenteeism Rate and Dropout Rate are not rounded. Absenteeism Rate is the percent of students who are chronically absent (have attendance rates below 84%).

#### **Student Engagement Indicators Data**

Group performance for Absenteeism Rate, Dropout Rate, and Test Participation is provided below for informational purposes, to facilitate analysis of achievement gaps, and to drive continuous improvement planning. If either the one-year or three-year rate meets the goal then no points are deducted. Test Participation data reflect the one-year test participation of groups.

APPENDIX II: FINANCIAL SUMMARY

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2019

This discussion and analysis of Denmark School District's financial information provides an overview of financial activities for the fiscal year ended June 30, 2019.

#### **FINANCIAL HIGHLIGHTS**

- Revenues included additional \$925,000 voter approved non-recurring referenda to exceed revenue limit for operating expenses.
- The equalized value of the District increased from \$759,383,937 to \$789,996,571 which is an increase of 4%.
- The District received \$925,410 in supplemental aid, which is based on \$654 per Student Full Time Equivalent.
- The District student enrollment held steady.
- The District had 191 students from other districts attend Denmark School District through open enrollment and 61 Denmark resident students attend other school districts through open enrollment.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2019

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This annual financial report consists of two parts - management's discussion and analysis and the basic financial statements, including notes to the financial statements and supplementary information.

The basic financial statements consist of two kinds of statements that present different views of the District's financial activities.

#### **District-wide Financial Statements**

- The <u>Statement of Net Position</u> compares assets and deferred outflows of resources to liabilities and deferred inflows of resources to give an overall view of the financial health of the District. This statement includes fixed assets and long-term liabilities.
- The <u>Statement of Activities</u> defines the District's expenses by function and illustrates the total that is offset by corresponding revenues charges for services and/or operating grants and contributions. General Revenues and extraordinary credits are identified. The result is total net expense offset by general and miscellaneous revenue recognizing the change in net position for the District from the previous year.

#### **Fund Financial Statements**

• The <u>Balance Sheet - Governmental Funds</u> and <u>Statement of Revenues, Expenditures, and Changes in Fund Balances - Governmental Funds</u> focus on individual parts of the District. Fund financial statements generally report operations in more detail than the district-wide statements.

The <u>Notes to Financial Statements</u> provide further explanation of some of the information in the statements and provide additional disclosures so statement users have a complete picture of the District's financial activities and position.

Required Supplementary Information further explains and supports the financial statements.

<u>Other Supplementary Information</u> provides information specific to nonmajor governmental funds and the schedules of expenditures of federal and state awards.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2019

The major features of the District's financial statements, including the scope of the activities reported and type of information contained, are shown in the following table. (Table #1)

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2019

#### Revenue: (Table #3)

- For FY18-19, the District received \$20.75M in revenue. This is an increase of 3.0% or \$.61M over the previous year. The District relies primarily on property taxes and general state aid to fund governmental activities. State Imposed Revenue Limits restrict the amount by which these two revenue sources, in combination, may be increased. The Revenue Limit is intended to help hold down increases in property taxes throughout the state.
- General state aid is a combination of equalization aid and computer aid. Equalization aid is paid according to a formula taking into consideration district spending and property values as compared to spending and property values for the state as a whole. Computer aid originated several years ago when technology was removed from the tax rolls for property value purposes. Other state aid sources are in the form of grants or categorical aids, which are directly related to specific program offerings.
- In 2018-19, general state aid was at 45% and property taxes at 33%. Other revenue sources stayed relatively consistent. In 2018-19, 78% of revenue came from local school property taxes and state aid.

### Expenses: (Table #3)

• For FY18-19, the District expenditures totaled \$20.14M. This is an increase of 2.7% or \$.52M from the previous year.

### MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2019

#### Table #4

Net Cost of Governmental Activities										
	<u>Total C</u>	Net Cost of Services 2019								
Instruction	\$	9,943,666	\$	6,994,449

Unallocated Depreciation		1,045,177		1,045,177						
Total	\$	20,141,994	\$	16,151,770						

#### Net Cost of Governmental Activities: (Table #4)

- The net cost of governmental activities was \$16.15M. This includes expenditures financed by general revenues primarily made up of property taxes, general state aid and interest income.
- The total cost of all governmental activities was \$20.14M. This includes expenditures financed by general revenue plus revenue collected through direct fees, \$2.09M, and operating grants & contributions associated with specific programs, \$1.90M.

#### Fund Balances:

The District's total fund balance for FY18-19 increased by \$7,645,205 to \$11.08M.

- The General Fund balance decreased by \$22,949 to \$3.16M. This represents approximately 15.7% of expenditures. The District utilizes this fund balance to minimize short-term borrowing and allows the District to respond to non-recurring economic needs.
- The <u>Capital Projects Fund</u> balance decreased by \$7,288,517 to \$0M. The capital projects fund balance is restricted to the acquisition or constriction of capital facilities. The decrease in fund balance is due to the fact that capital projects were completed before the end of the fiscal year.
- The Other Governmental Funds balances increased by \$133,420 to \$789,217. They consisted of the Special Revenue Trust, Debt Service, Food Service and Community Service Funds. The fund balances in these funds support the operations of the funds.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2019

### **Budgetary Highlights:**

Differences between the final budget and actual results for the general fund were:

- Revenues came in under budget by \$3,550.
- Expenditures came in under budget by \$21,382.

### Capital Asset and Debt Administration:

#### Capital Assets

• At the end of the fiscal year, the District had invested \$29,837,420 in a broad range of capital assets, including buildings, sites, and furniture and equipment.

#### Long-term Obligations

• At year-end, the District had \$15,446,494 in long-term obligations. Further detail can be found in Note #6 in the financial statements.

### Factors Bearing on the District's Future:

Currently known circumstances that will impact the District's financial status in the future are:

- Revenue limits continue to restrain budgets in Denmark School District and statewide. This is the second year of three on the voter approved referendum to exceed the revenue limit. We will be able to exceed the revenue limit by \$925,000 in in 2017-2018, 2018-2019 and 2019-2020. We anticipate that our pupil count will stay flat for the foreseeable future.
- The number of students attending Denmark from other districts through open enrollment continues to far exceed the number of Denmark resident students choosing to open enroll out to other districts. For the 2018-2019 school year we had 191 students attending Denmark through open enrollment and 61 Denmark students leaving the district to attend other schools.
- The District issued General Obligation School Improvement bonds in July 2017 in the amount of 14.9M,
- The District issued a promissory note in the amount of \$420,000 on October 26, 2018 for the purchase of adjacent property for the purpose of campus expansion.

### Contacting the District's Financial Management:

This financial report is prepared to provide a general overview of the District's finances and to demonstrate the District's accountability for the money it receives.
